

Auf gute Nachbarschaft!

Here's to Good Neighbours! It was information day for our development project on Fanny-Zobel-Strasse in Berlin.

On 18/19 September 2015, local residents and the general public were given the opportunity to get comprehensive information on the latest planning status of our building project on Fanny-Zobel-Strasse when the project-related local development plan XV-30bVE plus notes were on public display at the BVV hall of the Treptow city hall.

Many neighbours on Fanny-Zobel-Strasse and Martin-Hoffmann-Strasse right next to it took the time to get a first-hand impression and to approach us directly with questions and suggestions. We would like to seize this opportunity to thank everyone for their interest!
